306 Access/Skimmer Lid

Integrated, seamless covers that blend into your landscape.

The HIDE system takes outdoor aesthetics to the next level by seamlessly incorporating your selected surface material into the lid. This integration allows the lid to blend harmoniously with the surrounding landscape and creates a luxurious, uninterrupted outdoor space that captivates the senses.

Our range of HIDE lids goes beyond mere functionality, offering a sought-after seamless alternative for various landscape applications. Crafted from high-grade 316 Stainless Steel, these lids not only add a touch of sophistication but also ensure the protection of your inlay.

Safety is paramount, and with HIDE, you can rest assured. The lid has a unique safety key, preventing unauthorized access. This feature provides secure entry and adheres to Australian pool regulations, ensuring your peace of mind.

AUSTRALIAN OWNED AND MADE
HIDE ACCESS COVERS AND SKIMMER LIDS

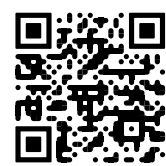

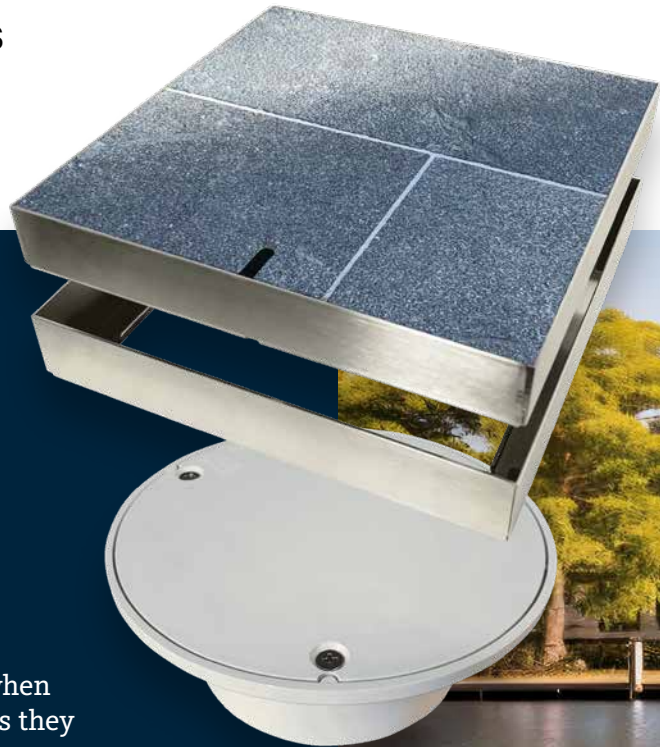

H I D E[®]

HIDE Access Covers are the perfect choice when concealing service points in outdoor areas, as they blend seamlessly into your selected surface. Stainless Steel HIDE Access Covers are available in a wide range of sizes and depths, and Polymer Covers are available when earthing is not achievable.

Access covers conceal entry to all service points, such as:

- Pool Skimmer Boxes
- IO & Bolted trap screw (BTS)
- Water table pipe
- Water and balance tanks
- Taps and irrigation
- Valves and meters
- Electrical junction box
- Termite bait stations

When embarking on your new landscape design, consider integrating HIDE Drain Covers from the outset. HIDE covers are designed for installation in pedestrian alfresco areas, ensuring both functionality and aesthetic appeal.

Learn More

HIDE Access and Skimmer Covers are also available as a bond-free (no earthing required) Polymer alternative.
